Job description (enter the actual advertisement text here, the text must not contain special characters or formatting)*:

OPEN VACANCY – PROCESS DEVELOPMENT MANAGER

Do you want to be part of the next Finnish success story? Innomost develops, manufactures, and sells raw materials based on Finnish wood to the cosmetics industry and other industrial customer groups. As demand for our products grows, we are looking for new professional to join our team.

Are you interested in working on the development of manufacturing processes for products made from renewable raw materials? Innomost is a circular economy pioneer in its own industry and focuses on solving customer challenges, e.g., in reducing the carbon footprint and creating a new type of renewable raw material base.

OUR VALUES

- Sustainable development
- High standards of quality
- Respecting customer needs
- Employee, consumer, and product safety
- Continuous development and innovation

JOB DESCRIPTION

We are looking for a Process Development Manager to develop production processes. The main raw material of our products is forest industry side stream Finnish birch bark. The work is versatile and you will become part of a team that aims to become a leading processor of forest industry side streams in the future.

Job advertisement form
