

Cosmetic Formulator and Regulatory Affairs Coordinator

We are looking for a passionate colleague to develop and test the greener technology based natural skin care and body care products based upon the interactions with our research team.

We also expect you to have a deeper knowledge of regulatory affairs within cosmeceuticals.

We expect you have a bachelor degree followed by ample experience in cosmetic formulations based upon greener solutions.

We are a global company with English as the common language.

You are enthusiastic with positive attitude and self-driven and ready to work in an international atmosphere.

We are a research and innovative company, supplying high quality, natural ingredients to the cosmetic industries globally.

Please send your resume to Prof. Vijai K.S. Shukla at rajks48@hotmail.com
